Subject: FW: STC SH07-36

Bill,

As promised, Canadian STC SH07-36 has been issued for the A119 windows.

Kim J.,

Create ECN and release. Update PDS. Initiate EASA and FAA validation. See Chris for the data.

Chris,

Signed Engineering Data is on its way to you. You should get it on Monday by Fedex. There is a couple of additional items for Marc.

Grant/Gord/Scott,

Thanks for your support on the Flight Testing. Hope the windows work well for you. There is no Vne restriction.

Sian,

Special thanks for your efforts in co-ordinating between Engineering, Production, and Skyline. I think this made a big difference in having this time sensitive project happen on time.

David
